

School Immunization Guidelines

Immunizations:

In order to attend school, students must show they are in compliance with Minnesota State Immunization Requirements. A copy of the student's current immunization record must be on file in the School Nurse Office.

Immunization Requirements:

Immunization requirements are outlined in *Are Your Kids Ready for School?*

Immunization Exemption:

Students may receive legal exemption from the immunization law for medical reasons or conscientiously held belief. It is necessary to provide a notarized exemption form to the School Nurse Office in order to fulfill state requirements. Exemption documentation can be obtained from the School Nurse Office.

Scheduling Immunizations:

It is recommended that children receive immunizations from their family clinic. Immunizations are also available at the Itasca County Public Health Office, 218-327-2941.
